

PlantDemand

PLANT SCHEDULING & FORECASTING MADE EASY

PlantDemand is an easy-to-use online planning and forecasting tool for asphalt, concrete and aggregate plants, to improve efficiency and productivity. By providing a single source of truth, real-time access, alerts and reports now production and sales teams can gain insight and make more informed decisions.

Shared live calendar

Sharing an aggregate sales calendar creates a single view of your orders across the entire team. Eliminate multiple spreadsheets and reduce unnecessary communication.

Material Demand Report			
supplier	material	All	05/03/2015
None	Portland Cement	2884	1220
	Water	3286	1367
American Aggregate Quarry	1" x #4 Rock	6707	2924
	1/2" Rock	1247	472
	3/8" Pea Gravel	1649	663
	Concrete Sand	4909	1992

Access anywhere, anytime

Access performance vs KPIs or forecast vs. actual production reports, so you can understand progress and make more informed decisions during the shift.

Early issue reporting

Warning colors help identify plant overbooking early and empower sales and production team customers to work together to resolve potential issues.

Other features

Visual order calendar

Understand what your plant must do in seconds on an intuitive order calendar with optimized order entry.

Customer order portal

Secure, simple, and accurate customer order portal makes accepting orders easy, and encourages loyalty, while reducing data entry.

Automated/on-demand reporting

Save time and frustration generating reports in a few clicks – instead of a few hours, the library of reports creates easy to read, clear reporting for more informed decisions.

Inventory forecasts

Spot inventory run-outs or surpluses, and help balance cash flow by knowing what your sales, production, and inventory forecasts are in only a few clicks.

Optimized for mobile

Access PlantDemand on your web browser, or mobile devices including smartphones and tablets.

99.9% uptime

Daily backups, secure user logins and data, flexible permissions management, and round-the-clock user support.

PlantDemand solves million dollar problems at a very affordable price, and allows you to schedule like a world class company should. I would use it whether I had 2 plants, or 200.

Ben A. – Sales & Estimating

I don't know what we would do without it. I wish we had it years ago.

Jeff M. – Plant Superintendent

PlantDemand is a great app, we don't know how we lived without it before, we use it for sales, production, QC scheduling, shop fueling scheduling and more. We are pleased with the help it provides for us, I hope that other regions are using it too.

Alvaro M. – Plant Manager

It is the one solution we have found that allows easy calendar viewing for multiple users with multiple needs. Also the demand planning reports with the ability to export to Excel make input and output forecasting much simpler.

Ross K. – Sales Manager
